'AMERICANS" WARY OF PARTY ORGAN

Vote Down Resolution Asking for Investigation of Its Malicious Misstatements.

GRIN TO COVER CONFUSION.

Councilman Fernstrom Asks That Citizens Be Furnished With Figures But Council Acts the Booby.

0000000000000000000000000

Wanted Information

This is the resolution Mr. Fernstrom introduced. Its purpose is plain-so plain, in fact that the "American" councilmen voted it down by a sloid majority vote:

Whereas, the Salt Lake Tribune of July 15, states that the Morris administration, comprising the years 1904 and 1905, left unpaid bills chargeable to the contingent fund in the sum of \$84.814.04, therefore be it

Resolved, that the auditor be. furnish this council at its next ? regular meeting, with a statement showing who held the claims against the city and how much of these claims have been Paracasasasasasasasas

Under a flery challenge from Councilman Fernstrom, the "American" members of the city council last night. by their action in defeating the above resolution, admitted that the organ of that party prevaricated when it printed the statement referred to in regard to the Morris administration leaving bills unpaid to the amount of \$84,814.04. By their action they refused to have the auditor make a report on that matter because they well knew that no figures could be obtained from that office showing any such results. When the resolution was introduced by Fernstrom several of them acted very innocently and wanted to know the meaning of it and when Fernstrom was called upon to cast his vote he told them what it meant in no unmistakeable terms. The "Americans" attempted to ridicule the councilman from the Third by telling him that he was commencing politics too early and that he night run ou of ammunition before the campaign was on, and they quietly defeated the resolution by a party vote of 8 to 9.

"AMERICAN" LEADERS HOWL. unpaid to the amount of \$84,814.04. By

"AMERICAN" LEADERS HOWL.

"AMERICAN" LEADERS HOWL.

After the resolution was read President Davis announed that it would be adopted if there were no objection but immediately there was a great clamor from several of the "Americans" who called for a vote on the matter. The roll was being called when Mulvey asked for information as to what the purpose of the resolution was. Fernstrom started to explain but was stopped owing to the fact that the roll call had been commenced. He got an opportunity to make a full explanation when his name was called to vote.

REAL CHALLENGE, THIS.

"This is a very serious matter," he declared in opening his remarks.
"There is a serious charge made by the newspaper which has the confi-dence of this administration and gets dence of this administration and gets all the grafts from it. The charge is that the Morris administration committed a crime by exceeding the debt limit. This resolution will show that the paper lies. If it is the truth you will vote with me to have the figures investigated but if it is a lie you will defeat the resolution. The Tribune is full of lies from top to bottom and a paper that lies as it does should not be given the public printing. The people of this city are entitled to have the truth about this matter and if it is untrue the Tribune should be branded as a liar. If you defeat this resolution you will admit that it is a lie. I know that such a statement is a lie. I know that such a statement is a lie. I know that such a statement is

TALK AROUND ISSUE.

TALK AROUND ISSUE.

The final statement of Fernstrom was emphasized very forcibly. When he had concluded, Mulvey expressed the opinion that Fernstrom was beginning too early on his campaign thunder and that he might run out before the campaign ended. To this Fornstrom replied that there would be pienty more material. He was asked if he believed everything he read in the papers, to which he replied that he did not believe what he read in the Tribune.

THE FINAL THRUST

By a solid "American" vote, as stated above, the resolution was defeated. Later in the evening the new garbage ordinance was passed which restricted the amount of paper to be hauled free by the city from the newspaper offices and as Fernstrom was leaving the council chamber he declared that the Tribune was so rotten that the "Americans" refused to haul it away free of charge.

SCANDAL APPROACHES CLIMAX. Affairs have reached a climax it seems in the city treasury scandal and the apologist of graft is now the "pig in the corner." Driven to confess error the apologist of graft is now the "pig in the corner." Driven to confess error after error it is making all sorts of astonishing assertions. The latest is perhaps most astonishing of all, and the climax came last night when the party leaders refused to stand for its assertions or grant an investigation of them. It has at last been forced to find a place for the "deficit" it has always attributed to the Morris administration. Whenever some remark was made or question asked regarding the condition of the city treasury the Hand Organ depied the existence of any deficit and yet in the same breath has blamed the very shortage it so strenuously denies to "deficit" left by the Morris administration. But no one was ever told just how the "deficit" came to be left. The Hand Organ falled to tell also in what fund or funds the "deficit" was left. Persistent questioning has at last succeeded in bringing out information. Monday morning it made the startling announcement that the Morris administration left \$80,000 worth of unpaid bills chargeable to the CONTINGENT fund! But the allegation is all that is offered!

STATEMENT IS ABSURD. R. P. Morris, ex-mayor of Salt Lake was shown this statement. An amuged laugh was his immediate comment. "What next!" he exclaimed laughingly, "I can only refer you, and all others, interested, to the report made by Charles Felt, city auditor during my mayorship. This shows just how affairs stood when we surrendered office, and you will find no such defleit against the contingent fund. You will find a surplus of over \$3,000. Anyons who has had anything to do with muni-

cipal government knows one month's bills do not come due until the first of the succeeding month. This applies to most all accounts, in fact. The merchant or storekeeper does not send out statements for one month until the first of the following month. Wavrants drawn against a city are turned in for collection in the same way. Now, in justice to all concerned, I wish to explain that there were a few items in the December expense account which we did not cover, for the reason given. We did pay the police and fire department bills and a number of others, however, so the warrants outstanding against the contingent fund had no large total. There was over \$3,000 in cash to the credit of the contingent fund as I have explained."

"Could there be any possible way that a defit of over \$80,000 might be figured in against your contingent fund when you and your officers stepped down?"

down?"
The immediate answer was another audible smile. "No! Most emphatically, no! Such a statement as that is so absurd I do not feel inclined to discuss it. The only bills paid were for the latter half of the December at the close of my term. There was no such amount; no amount like it. Let's go down to Charley's Feit's office and get the figures. They're absolutely correct and accurate."

SIMON-PURE LIE.

So down to Mr. Felt's office Mr. Morris and his interviewer went. When asked if he had seen the statement made by the party organ. Mr. Felt answered in the negative, "I never read the Tribune" he explained gently. When told the statement made had it that the Morris administration had left a deficit of over \$89,000 in its conglingent fund. Mr. Felt's laughter was even heartier than that of Salt Lake's former mayor. "Bosh!" was his amused comment, "I guess the man responsible for that figure included unsettled suits against the city!" Mr. Felt then produced a copy of the report he turned in at the expiration of his term as city auditor. In the table entitled "Recapitulation of Receipts and Disbursements," with balances for 1905 and ander the subhead of "General Funds" is this entry: SIMON-PURE LIE.

CONTINGENT FUND.

is this entry:

Balance, Dec. 31, 1905......\$ 3,803.49 As this entry shows, a balance of over \$3,000 in cash was left to the credit of the contingent fund.

BLUFF IS CALLED.

BLUFF IS CALLED.

Now that the organ has "crawled from under" on its assertions that an il-mill tax is coming in to pay the contingent fund's debts created by the "American" administration's extravagance, and other equally misleading false statements, it has been driven into a corner and forced to show its hand again. It has always talked vaguely of an inherited deficit which it used as a shield to ward off too direct questions. Now Councilman Fernstrom asks that the affairs of the former administration be thoroughly investigated to show the absolute falsity and absurdity of such talk.

The party refuses to stand for its organ's recklessness. Mr. Fernstrom, knowing that the investigation he asked would show the true status of affairs, is determined that figures be produced. He asked also for figures showing what the previous administration expended to meet the December bills left unpaid by the preceding Thompson administration. His request was refused by the "American" leaders, who tried to joke the affair away. The contrast between this determination to have official figures produced and the organ's desperate efforts to cover the tell-tale evidences of bankruptcy speaks volumes in itself and citizens desirous of getting honest, truthful information as to the actual condition of the city treasury can arrive at but one conclusion. It is evident they need not look to the present "reform" administration for honest information. for honest information.

the family, Alex Stussel shot himself in the head at Bingham early yesterday morning, and the attempt at self-destruction will probably prove successful, as the young man's condition is considered to be critical. The shot was fired in the rear room of the Michigan saloon, a place run by Stussel's father. The son was employed as a bartender, and at times made deliveries of goods. He had been drinking to excess for some time past, and much unpleasantness existed among members of the family.

Sunday night there was a violent row. morning, and the attempt at self-de-
